FWCC's Goals

- To facilitate loving understanding of diversities among Friends while we discover together, with God's help our common spiritual ground;
- To facilitate full expression of our Friends' testimonies in the world

The map shows primarily yearly meetings or countries. There are other Friends in single monthly meetings and worship groups in many additional countries. Some groups within countries may not be listed separately. Some membership figures are approximate. The map is not drawn to scale. For more statistical details, see *Quakers Around the World*, published by the FWCC World Office (London), 1994. For meetings in the Americas, see the *2002 Directory*, published by FWCC Section of the Americas.
